OCR Supported Languages

STImaging OCR option provides OCR support for more than 190 languages, including virtually all of the language sets used in commerce, literature, and archival documents. These include language sets from Western Civilization, Europe, the Middle East, and Asian countries. Below Matrix lists a few of the Natural Languages for reference. For the complete supported list of languages, please use link below.
https://help.abbyy.com/en-us/finereader/12/supportedlanguages (Abby FineReader ver. 12)

Abkhaz	Czech*	Hawaiian	Latin*	Portuguese*	Spanish*
Adyghe	Dakota	Hungarian*	Latvian*	Ojibway	Swedish*
Afrikaans	Danish*	Icelandic (is)	Lezgi	Ossetian	Tagalog
